## The Lore of Mt. Shasta

Mount Shasta is an imposing 14, 179 ft. Volcano in northern California. It has been the sacred home for many Native American tribes for thousands of years. It is one of the 7 sacred mountains in the world.

The legend of the mountain includes stories of angels, spirit guides, UFO's, Inter- terrestrials, and Ascended Masters. Lemurians live in an inter-dimensional city Telos (also called the Crystal City of Light of the Seven Rays).

It is believed that the people of Telos are descendents of ancient Lemurians who lived 4,500,000 BC to 12,000 BC. They were an advance race who came from other galaxies such as Sirius and Alpha Centauri. Telos is an Argathan network of 100 cites. Shamballa is the seat of Government.

Adamos is the Ascended Master and High Priest of Telos.

### Work beyond the Mayan Calendar

The world has changed, in case you did not notice. We will not go back to where we were.

*"Change cannot happen by looking through the same old lenses."* We are witnessing the greatest transition in the history of human kind. We are birthing a new life and a new world. We are responsible both collectively and individually for how we want our world to be. What and how "we vibe" together will make the critical difference.

Some of you were called long ago to be Sacred Space Keepers on earth. Your presence alone increases the frequencies on this planet. You facilitate change where ever you go. As you change, others change around you. You know who you are.
